

## Change in Bus Route 41 stop at San Diego VA Medical Center

The San Diego Metropolitan Transit System (MTS) Bus Route 41 no longer stops at the medical center (effective 1/27/2019). The replacement bus stop on Villa La Jolla will open on Monday, February 11, 2019. For those two weeks, employees and patients will need to use the stop on UCSD at the Gilman Transit Center. See more information below. We will post information on our web page and social media for Veterans too.

Until the new bus stop on Villa La Jolla @ the VA Medical Center Driveway opens on 2/11/19 the nearest bus stop to the VA Medical Center for Route 41 passengers is at Gilman Transit Center on the UCSD campus (two blocks away). Passengers can take the northbound Route 30 at the Gilman Transit Center to reach the VA Medical Center but will need to plan their trip for the additional travel time. MTS Trip Planning can assist customers with the planning the trip. MTS Trip Planning can be reached at 619-233-3004 Monday-Friday 5:30 am - 8:30 pm and Weekends 7:00 am - 7:00 pm.

Please see attached updated summary for changes to Bus Route 41 implemented this week. The bus stop at Villa La Jolla & the VA Medical Center Driveway will open effective February 11, 2019.
